Thinking of tomorrow – today...

HERMA guarantees sustainable quality

✓ TÜV-certified

HERMA is certified as per ISO 9001:2008 by TÜV SÜD for the development, production and sale of labels.

✓ Excellent environmental characteristics

Much of our label material is PEFC-certified and derived entirely from sustainable forestry. HERMA uses only chlorine-free bleached paper and water-based, solvent-free adhesives.

✓ HERMA's production facilities have low energy and space requirements

With one of the most advanced coating facilities, HERMA is a pioneer in terms of product spectrum, production quality and environmental protection. Our highly efficient, energy-saving warehousing and conveyor systems are closely networked with the coating facility, require only half as much space and cut transport distances to a minimum. By using heat recovery in the production of adhesive materials we are able to make lasting cuts in our energy requirements.

✓ HERMA labels are 100% recyclable as waste paper

We use only solvent-free adhesives and label papers made from chlorine-free bleached cellulose. For years, HERMA has routinely used cardboard made from recycled material.

✓ Awarded the Blue Angel ecolabel

HERMA labels made from recycled paper have the highly regarded Blue Angel ecolabel, which signifies excellent environmental and quality standards.

✓ HERMA assumes its responsibility for people and for nature

Besides being committed to the environment, we recognise our responsibility towards our fellow human beings. For example, we support a number of community service projects and initiatives. And by training large numbers of apprentices we invest not only in the HERMA brand but in Germany's future as a place to live and work.

✓ Quality "Made in Germany"

We are committed to Germany as a production base. That's because the renowned quality of HERMA products depends on state-of-the-art facilities and highly trained employees.

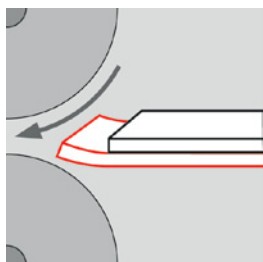

Brilliant. Sharp contours. Smooth.

Innovative technologies for perfect results

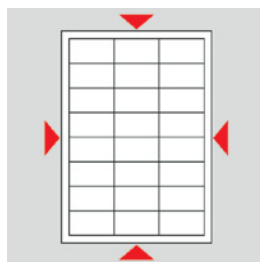

HERMA labels meet the vast array of stringent quality standards required by printers and users:

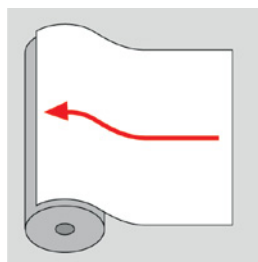

Sophisticated product features

No adhesive deposits thanks to all-round protective edge.

No paper dust thanks to cleanly cut edges on all sides.

Trouble-free running thanks to optimum flatness and high flexibility.

Processing reliability guaranteed

Thorough quality control – from the raw materials through to the end product.

Climate-proof package: protects the contents from harm caused by moisture and temperature.

The right label for every use

- For all PC printers and copiers
- For photo-quality inkjet printing
- For high-speed laser printers

Excellent printing results on colour laser printers

With their high-resolution quality, HERMA labels ensure superior printing results on colour laser printers and colour copiers.

Tested and approved.

HERMA labels are regularly subjected to rigorous tests on all common printers. We make every effort to ensure smooth running and top-quality printing results. Leading printer manufacturers honour our high quality with approval certificates and recommendations.

Better and customer-friendly: the structure of the HERMA product range.

HERMA PREMIUM and HERMA SPECIAL: the principal advantages of HERMA's product range are clarity, simplicity and customer-friendliness. In the HERMA PREMIUM and HERMA SPECIAL ranges, you and your customers will find what you're looking for quickly and easily – and in the best HERMA quality ever.

The HERMA colour code system: the HERMA range is structured by application and has a clear colour code system for finding products fast at points-of-sale and in the catalogue.

HERMA PREMIUM

GENERAL USE	ADDRESSING
PREMIUM labels	PREMIUM address labels

HERMA SPECIAL

ADDRESSING	SHIPPING	FILING	DATA STORAGE	IDENTIFICATION
Repositionable address labels	Weatherproof shipping labels	Permanent file spine labels	CD/DVD labels	Removable/repositionable labels

Inkjet address labels	Shipping labels for warning notes	Removable file spine labels	Video, slide labels, diskettes, ZIP	Labels made of recycled paper
Transparent address labels		Inkjet file spine labels		Signs
		Tab labels		Pricing and product identification
		Spine insert labels		Signalling/information labels (colour, neon, special shapes)
				Decorative labels (transparent, crystal clear, gold, silver, glossy)
				Outdoor/hard-wearing (film/paper)
				Security labels
				Name/textile labels/ Inserts
				Other labels

HERMA PREMIUM

Top quality in all formats

HERMA PREMIUM labels are visibly whiter, more opaque and made from high-quality, extra-strong paper. For brilliant, razor-sharp print-outs and jam-free printing on all PC printers and copiers.

✓ Produced the sustainable way

The paper used for HERMA PREMIUM labels is 100% PEFC-certified and comes from sustainably managed forests.

✓ Whiter than ever before

HERMA PREMIUM labels are visibly whiter – and completely chlorine bleach free. The top-quality label paper guarantees brilliant, razor-sharp print-outs on all PC printers and copiers – whether black-and-white or colour.

✓ Perceptibly thicker

Perceptibly thicker materials make HERMA PREMIUM labels easier to peel off and stick on than ever before. Moreover, the extra-strong laminate gives the labels high-speed capability, while absolute flatness ensures jam-free printing on all laser, inkjet and high-speed printers.

✓ Visibly more opaque

HERMA PREMIUM labels are made from thicker paper, which makes them more opaque than ever before. Virtually nothing shows through.

HERMA SPECIAL

Labels for special applications

The right label for every use. From sturdy, weatherproof labels to repositionable labels, special shapes and striking colours. Thanks to the clear package layout, you can find the label you are looking for quickly and easily – and in user-friendly quantities.

✓ Special materials for special applications

The label papers, adhesives and formats are perfectly matched to the task.

✓ Adhesion to a wide range of surfaces

HERMA labels have outstanding adhesive properties. Their adhesive strength differs, depending on the job in hand.

✓ Product characteristics at a glance

Application icons and illustrations show the special characteristics of each product. The product name and characteristics are formulated clearly and concisely. A colour code system helps you find products fast.

Removable labels

Ideal for inscriptions that change

Coloured labels

Labels that draw attention thanks to high visibility

File spine labels

Fully opaque, nothing shines through

Rating plates

Ideal for long-lasting labelling

Signalling labels

Weather-resistant and hard-wearing

Transparent labels

Printed-on look – ideal for coloured backgrounds

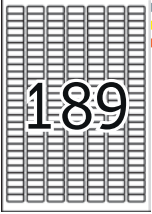

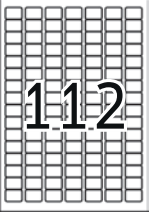

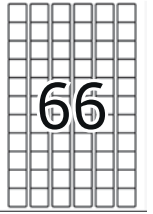

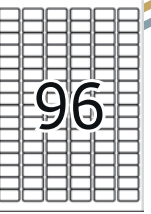

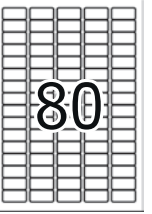

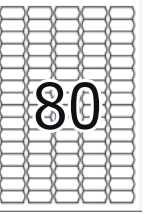

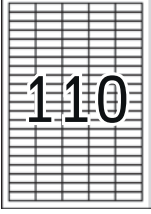

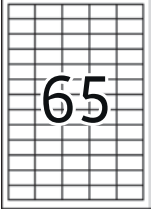

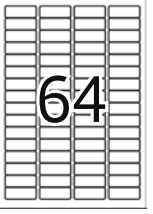

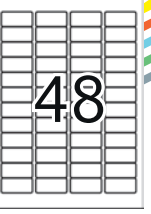

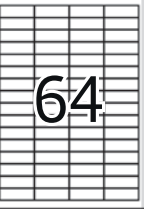

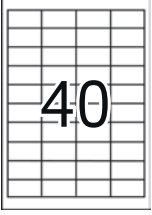

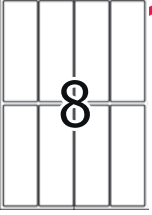

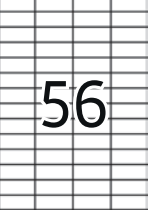

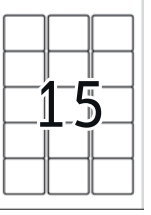

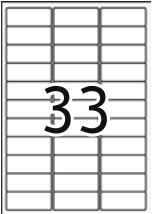

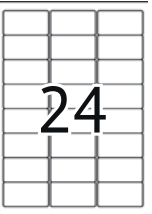

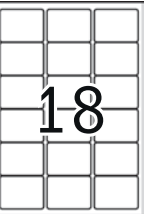

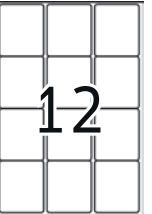

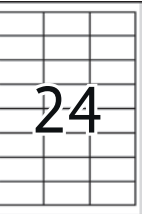

Labels for laser printers, copiers and inkjet printers

Well-thought-out solutions for every application

Product solutions for every application with materials and adhesives that are perfectly matched to the task and address every need.

HERMA PREMIUM – the best of HERMA.

HERMA PREMIUM sets technology and quality standards in label manufacturing. The extra-strong bonding to liner makes the labels suitable for high-speed printing, while optimum flatness prevents jamming whatever the PC printer or copier. The extremely high-white paper produces brilliant, sharp print-outs.

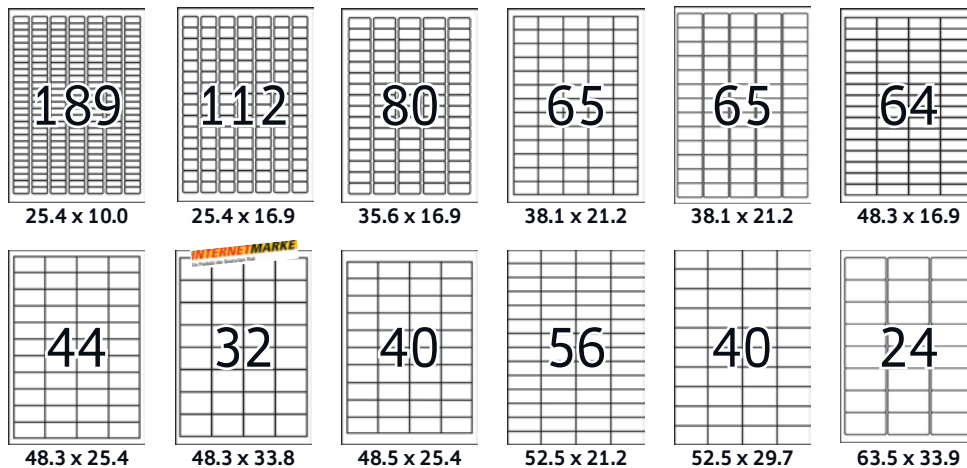

HERMA's triple protection for trouble-free printing.

- Problem-free processing thanks to ultra-pliant, lay-flat labels
- No adhesive deposits or paper dust thanks to all-round protective edge
- Special climate-proof pack made from recycled cardboard

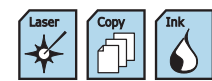

The HERMA sustainability pledge:

- 100% PEFC-certified paper which is chlorine, acid and solvent-free
- 100% recyclable, dispose of as for waste paper

Naturally better: absolutely reliable, top-quality printing results, firmly adhesive, kind to the environment and sustainable.

- High-speed print capability and jam-free printing thanks to extra-strong special laminate and optimum flatness
- High whiteness and uniform surface for perfect, high-contrast printing results
- 100% compatible with all commonly used printers
- Perceptibly thicker: extra-strong labels – easy to affix
- Very fast, reliable adhesion, now even on cool, moist surfaces
- Kind to the environment and sustainable: 100% PEFC-certified label paper, chlorine-free bleached, acid and solvent-free
- 100% recyclable, dispose of as for waste paper

monochrome + colour

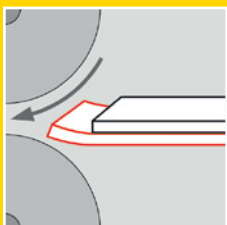

PEFC-certified:

All products with the label  are manufactured with paper made from PEFC-certified raw materials.

All-round reliability in printing

All PC-printable HERMA labels have an all-round protective edge. This is an area that is free of adhesive, ensuring that adhesive particles are not deposited in the printer where they can stick to the drum. Labels thus will not come off in the printer, and there will be no adhesive streaks on later sheets. Optimum processing reliability – made by HERMA.

N = Novelty

 Label paper made of PEFC-certified raw materials

HERMA PREMIUM – guaranteed not to jam. Even during high-speed printing.

Colour laser printers are in widespread use, both in offices and in the home. These printers are becoming increasingly high-speed and increasingly sensitive. Brilliant, high-contrast, sharp printing results can only be achieved with the use of high-quality materials. The high friction temperatures and high print speeds place the print materials under extreme stress.

HERMA PREMIUM labels with their extra-strong, ultra-flat, special laminate are extremely resistant to thermal and mechanical loads even at high printing speeds. The all-round protective edge and precision cut of HERMA labels provide optimum protection for print devices. No paper dust, no adhesive deposits, no jamming – HERMA PREMIUM labels have everything going for them.

Print labels with a colour laser printer? Why not?

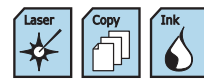

Colour laser printers and colour copiers are increasingly able to process heavy materials like labels. The printing result depends on the quality of the labels and on having the correct printer settings. We recommend setting the printer driver or printer panel for "heavy materials" (or, depending on the printer, "thick paper", "thick stock", "cardboard" or "labels"). It is also wise to put the labels in the single-sheet feed or the stack feed.

A few things to remember

To ensure reliable label processing, keep the following rules in mind:

- Store them at room temperature (about 20°C) and protect them from moisture
- If only part of the package contents are used, keep the remainder in the closed package (with climate protection)
- Thumb quickly through the sheets before putting them in the feed tray
- Allow sheets to pass through the printer only once. Sheets with missing labels can cause paper jams if sent through a second time

HERMA label papers – 100% PEFC-certified

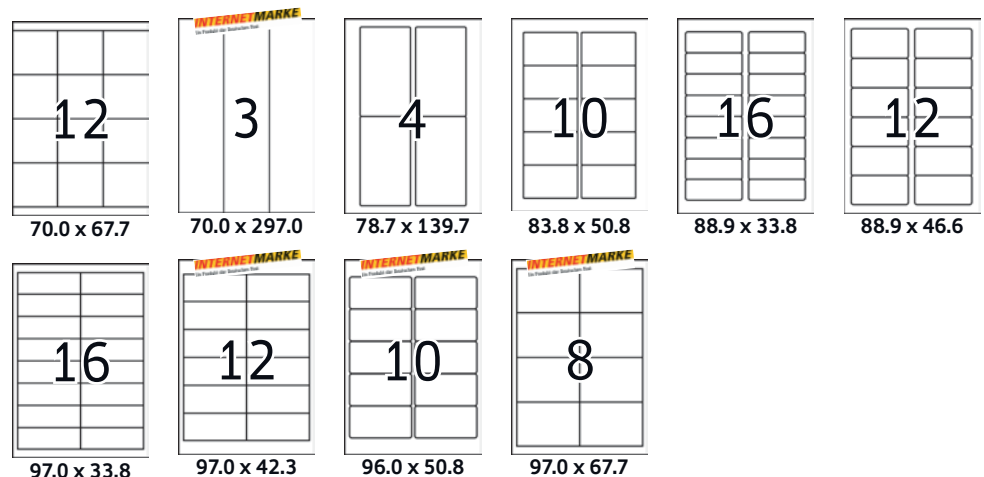

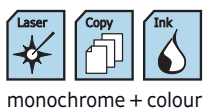

For us, environmental compatibility is part of our comprehensive quality guarantee. HERMA PREMIUM labels are made from 100% PEFC-certified label paper – that is, exclusively from material from sustainably managed forests and chlorine-free bleach. But HERMA goes beyond that: it processes all of its adhesives in an environmentally friendly manner, which includes dispensing with solvents.

And HERMA emphasises sustainability in its production processes too: with one of the world's most advanced coating facilities, energy-saving warehousing and conveyor systems as well as environmentally friendly technology such as heat recovery.

Sheets with a border on all sides?

Use labels with a border on all sides if printing will cover the whole area. The non-printable area will then be beyond the label contours.

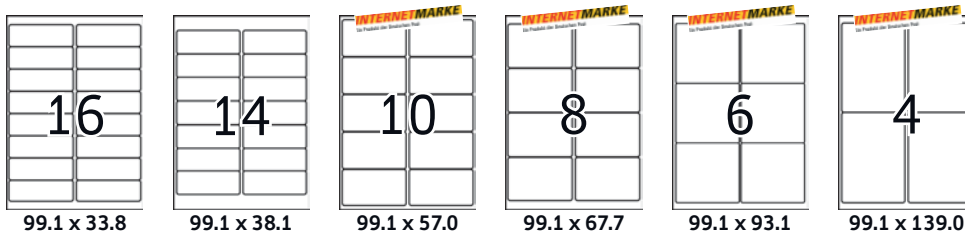

HERMA PREMIUM labels – sharp outlines even for the small print.

This high-white label paper with its extremely smooth surface guarantees optimum contrast and sharp outlines even for the smallest characters. Barcodes are accurately reproduced so that they are always legible.

HERMA PREMIUM labels deliver the same convincing performance on all commonly used printers thanks to excellent toner fixing and clear-cut print-outs in B/W or colour. HERMA PREMIUM label paper is acid-free, making it age-resistant and archive-safe, while the adhesive is free from plasticizers and solvents. The sure solution for long-term uses, such as in libraries and archives.

It's all written on the back...

To aid in identification of sheets that have been taken from the package, the article number is shown on the back. This also ensures a correct match with the article number selected by the software. Printing errors can be reliably avoided. And when it's time to reorder, you'll know what to request, even if you have only one sheet left.

Peeling off labels was never so easy

The new, universal peel-off aid for unpunched A4 labels leaves every option open:

1. You can remove the backing paper in one go if you want to use the label whole.
2. You can remove the backing paper section by section if you want to cut the label into smaller label formats.

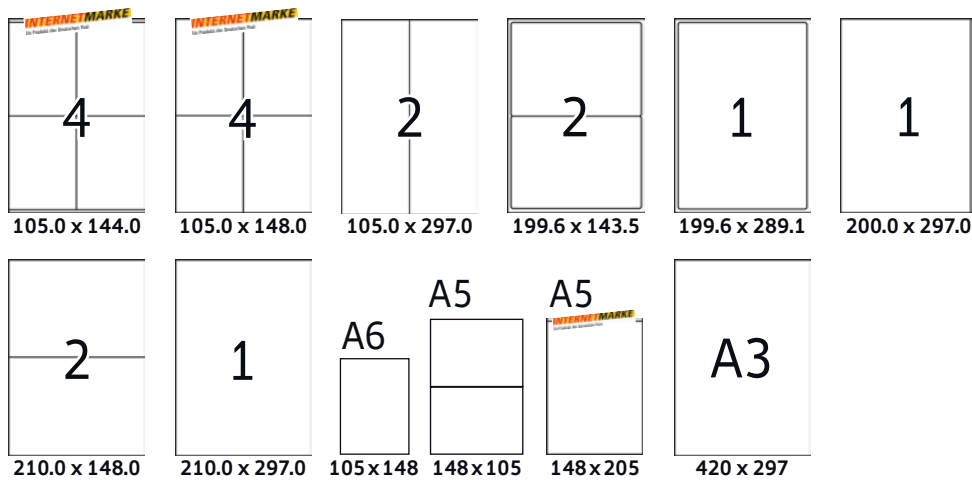

Unique: climate-proof packs

Moisture and temperature fluctuations can do serious damage to labels: warped label sheets can cause paper jams, and high humidity can result in uneven toner pickup. To ensure that HERMA labels get to you in the best possible condition, our packages have a special functional feature.

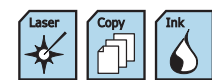

The climate-proof package protects the contents from harm caused by moisture and temperature. The rugged, reclosable cardboard package also provides protection against mechanical damage. This new packaging technology makes it easier to remove and store labels. And it's made from recycled card – environmentally friendly and 100% recyclable.

HERMA address labels – because the first impression is crucial.

A professional look is essential for a good image.

The HERMA PREMIUM address labels with rounded corners play an important role here.

Available for all current standard envelopes, they'll win you over with their jam-free printing and clear-cut printing results on all commonly used printers, extreme whiteness and reliable adhesion to all surfaces.

The new label material is perceptibly thicker and the labels more robust, which makes peeling and applying them much easier.

If undelivered, return to sender.

The small label formats in the HERMA PREMIUM range make ideal sender labels. That way, undelivered mail is sure to come back to you. With HERMA PREMIUM, you can even print your corporate logo in colour for extra publicity and give a professional look to your mail. You'll find small label formats on page 17.

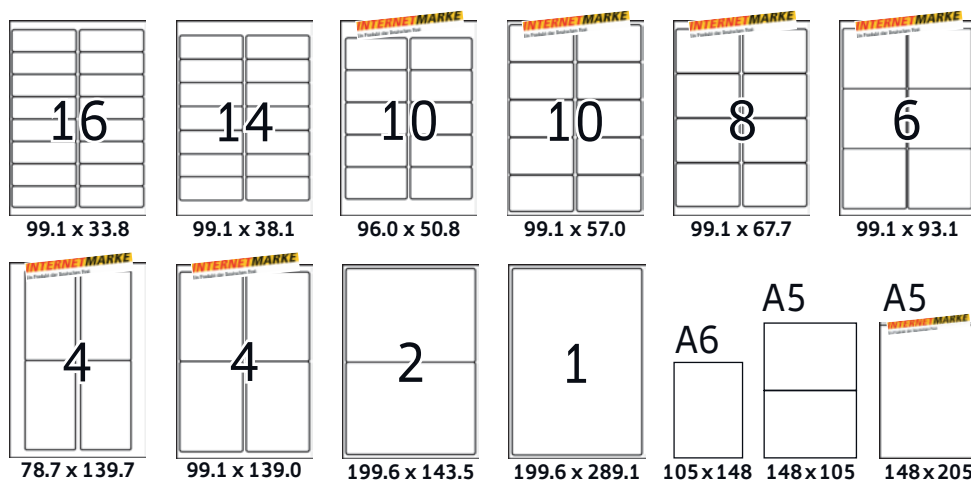

- Rounded corners
- Sheet with border on all sides
- Label paper made of PEFC-certified raw materials

Address labels in mail merge

The mail merge function in HERMA LabelAssistant online even lets you put addresses from Excel files onto labels and print them on your PC, right on the Internet. It's fast, convenient and simple – no software downloads or installation necessary. www.herma.com/eao

PREMIUM address labels

Naturally better: absolutely reliable, top-quality printing results, firmly adhesive, kind to the environment and sustainable.

- High-speed print capability and jam-free printing thanks to extra-strong special laminate and optimum flatness
- High whiteness and uniform surface for perfect, high-contrast printing results
- 100% compatible with all commonly used printers
- Perceptibly thicker: extra-strong labels – easy to affix
- Kind to the environment and sustainable: 100% PEFC-certified label paper, chlorine-free bleached, acid and solvent free
- 100% recyclable, dispose of as for waste paper

^{1c)} suitable for INTERNETMARKE® with recipient's address

²⁾ suitable for DHL, HERMES and other online mail-order service providers

www.internetmarke.de

HERMA and Deutsche Post DHL have perfectly coordinated labels and software solutions – accurate postage print-outs guaranteed. The formats available for this service are indicated in the tables.

Suitable for INTERNETMARKE®:

^{1a)} without design, without address ^{1b)} without recipient's address ^{1c)} with recipient's address

²⁾ suitable for DHL, HERMES and other online mail-order service providers

Postage stamps straight off the Internet. Online postage paid with your favourite motif. Now also available with recipient and sender addresses. Perfectly printed on HERMA PREMIUM labels.

If your address label doesn't quite line up – simply peel it off and stick it on again.

This is all made possible thanks to our unique Movables® technology. This special adhesive technology allows the address label to simply peel off without leaving residue and stick firmly back on again. And if need be, you can use envelopes and boxes over again – the labels leave no residue behind and do not damage the surface.

Suitable for all packaging materials: envelopes, parcels, shipping tubes, plastic film

Repositionable address labels (Movables® technology)

The more versatile address label.

- Reliable adhesion to all packaging materials
- Problem-free repositioning, adheres again many times
- Residue-free removal without damaging the surface
- Economical: print single labels with „single-print“ template
- Best printing results and reliable processing on all PC printers and copiers
- 100% recyclable, dispose of as for waste paper

HERMA Labels made of 100% recycled paper, awarded the Blue Angel ecolabel. Great for the environment and for the climate

HERMA labels have the Blue Angel ecolabel. That's because both the label paper and the backing are made exclusively from recycled paper. The natural white label material is unusually bright, with high purity. Only top-quality wastepaper is used, allowing processing without chlorine bleach and whitening agents.

The paper fulfills the requirements of DIN 6738 (age resistance). The water-based adhesive is free of plasticizers, acids and solvents, and the packaging is made of recycled cardboard. By using recycled paper HERMA reduces the amount of logging in our forests. This is an important contribution to forest conservation and prededction. HERMA conserves energy and natural resources in production.

Labels made of recycled paper, with the Blue Angel ecolabel

You'll find more Inkjet labels on pages 35 (file spine labels) and 46 (labels for identification purposes).

Specially designed for inkjet printers – special coated paper, 90g/m².

- Dries instantly, wipe-resistant
- Razor-sharp contours, brilliant colours
- All-round border permits full-size printing
- Glitch-free printing even with paper guides that are less than reliable

Photo Quality
monochrome + colour

⌣ Rounded corners

□ Sheet with border on all sides

No-label effect – characters appear to be printed directly on the support

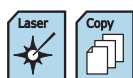

Transparent labels from HERMA are virtually invisible – perfect for professional, quality mailing. The address looks as if it has been printed directly onto the envelope. Ideal for coloured envelopes as well as for inscriptions on folders and stylish documents, drawers and cabinets, for identifying property and products and for updating documents.

Transparent address labels

No-label effect – characters appear to be printed directly on the support

- Versatile: use them wherever white labels would look out of place
- Ideal for coloured backgrounds
- Transparent polyester film, with special laser coating for excellent toner fixing
- Weather-resistant and dirt-repellent
- For laser printers and copiers, colour laser printers and colour copiers

N = Novelty

For getting maximum attention.

Custom shipping and warning notes such as “Fragile” and “This Side Up” ensure that your packages get to their destination undamaged. Their bright red colour is perfect for getting attention. With a colour printer you can print your own messages in white letters on a coloured background and produce them in the quantities required. And of course you can print any other messages you need.

You might want to convey confidential information or add special messages like “Remove immediately and water thoroughly” for a plant shipment.

HERMA file spine labels – and everything is in good shape

Perfect for all file spine

Whatever kind of files you use, you'll find a HERMA label to fit your needs: for standing or hanging files, narrow or wide, short or long, or with a punched thumb hole.

For affixing or inserting, white or coloured. Permanent or removable. This high-white label paper is fully opaque and guarantees top-quality printing results in both black-and-white and colour.

Save time thanks to clearly labelled files

The days of endless searches for folders and documents are a thing of the past thanks to HERMA file spine labels. Custom-printed spine labels not only look more professional, they also help to structure and organize your filing cabinet. The blank white labels provide plenty of space for inscriptions, the corporate logo and your own filing criteria, such as special colours or symbols. With the coloured labels, you can define different areas, such as yellow for finance and red for marketing. The labels are opaque, which means that you can use files several times – the existing inscription is masked completely.

- ↑ Label paper made of PEFC-certified raw materials

Easy and professional designing of spine labels.

Complete package: file spine labels + software.
Functional and efficient, with almost unlimited design features. The software contains all HERMA labels.
See page 77 for details.

Ref. no. 8373

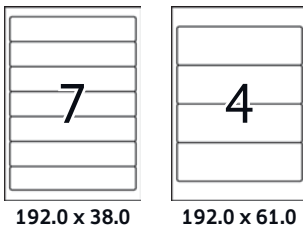

**HERMA Labels made of 100% recycled paper, awarded the Blue Angel ecolabel.
Great for the environment and for the climate**

HERMA labels have the Blue Angel ecolabel. That's because both the label paper and the backing are made exclusively from recycled paper. The natural white label material is unusually bright, with high purity. Only top-quality wastepaper is used, allowing processing without chlorine bleach and whitening agents.

The paper fulfills the requirements of DIN 6738 (age resistance). The water-based adhesive is free of plasticizers, acids and solvents, and the packaging is made of recycled cardboard. By using recycled paper HERMA reduces the amount of logging in our forests. This is an important contribution to forest conservation and protection. HERMA conserves energy and natural resources in production.

File spine labels made of recycled paper, with the Blue Angel ecolabel

Leitz, Elba, Mehle, Bene, Biella:						
192.0 x 61.0	natural white, wide, short	 	100	4	400	10835

You'll find more labels made of recycled paper on pages 27 (address labels) and 45 (labels for identification purposes).

Awarded the Blue Angel ecolabel:

- Labels and backing paper made from 100% recycled paper
- High brightness and purity thanks to wastepaper selection and special processing, without the use of chlorine bleach or whitening agents (brightness ISO 97% / CIE 133)
- Smooth surface, high covering capacity
- Water-based, solvent-free adhesives; plasticizer-free and acid-free, safe to use with all foods
- 100% recyclable

monochrome + colour

-  Rounded corners
-  Sheet with border on all sides

File labelling – simple, reliable and flexible Movables®. Adhesive technology that inspires.

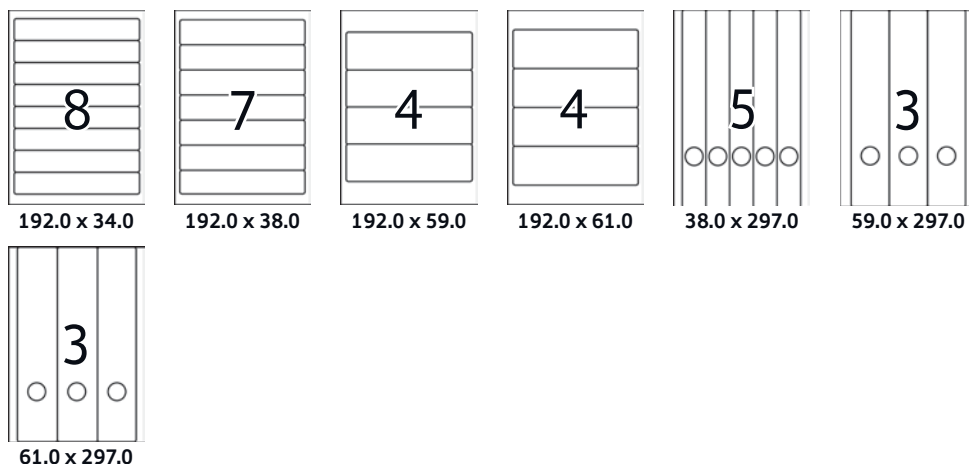

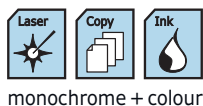

Innovative rationale: An „intelligent“ adhesive coating that adheres reliably when required to do so and can also easily be removed if needed. With Movables® technology special adhesive granules are firmly embedded in the label material, which means that the label can subsequently be removed at any time without damaging the subsurface. That means that files can be used again when the contents change, which cuts costs.

Removable file spine labels, opaque (Movables®-Technology)

Labelling of files – extremely easy, reliable and flexible.

- Reliable adhesion, even with frequently used files
- Problem-free repositioning, adheres again several times
- Can be removed without leaving residue and without damaging the file
- Fully opaque: nothing shines through
- High-white label paper for top-quality printing results
- Blank: ideal for company logos, inscriptions and organization notes
- 100% recyclable, dispose of as for waste paper

Label paper made of PEFC-certified raw materials

With HERMA, your data on CDs and DVDs is safely stored.

CDs and DVDs are used by the millions to transport data, presentations, images and films.

With its CD/DVD range, HERMA offers a well-conceived system which satisfies every need, from labelling to archiving to mailing. One genuine advantage is the positioning aid on each label which helps you position it exactly in the middle. Trouble-free playing is guaranteed, even in high-speed drives. Thanks to the CD cover labels, the CD and cover match exactly.

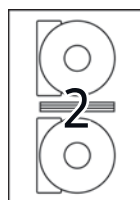

For archiving purposes, HERMA offers a comprehensive range of products: CD/DVD covers in paper with self-adhesive rear side, or made of transparent film for filing, CD fixation dots and the proven CD/DVD files and boxes. Mailing CDs and DVDs couldn't be more efficient thanks to HERMA CD PostPacks.

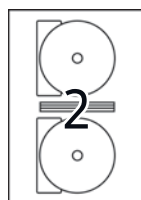

CD labels, opaque, permanent adhesion, with positioning aid at each label

Perfectly centred – firmly adhesive

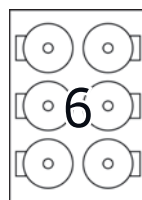

- Positioning aid at each label for dead-centre label placement, avoiding a tiresome trial-and-error process or distracting fingerprints
- Reliable adhesion, even in high-speed drives
- High-white label paper, fully opaque: printed surface of the CD does not shine through

ø 116

▲ Label paper made of PEFC-certified raw materials

Positioning aid
at each label

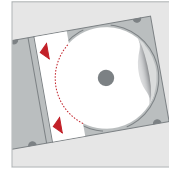

Dead-centre placement – with no additional aids

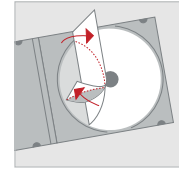

Each HERMA CD label has its own positioning aid. Just place the label in the jewel case and attach it. That's all. Your label is perfectly centred. The CD will run smoothly, even in high-speed drives. The positioning aid also keeps your fingers away from the adhesive – no problems with bothersome fingerprints.

Remove the label with positioning aid from the sheet

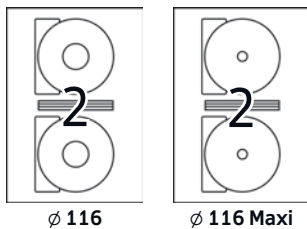

Left align the positioning aid against the ridge of the CD box

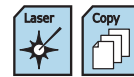

Affix the label and remove the positioning aid

CD labels, transparent or glossy, with positioning aid at each label

- Transparent – the inscription looks as if printed directly on the support
- Glossy: for print-outs to impress

And round we go!

Semicircular or circular lettering is especially effective on CDs.

Or impress the recipient with a custom-designed CD label with not only the contents inscribed on it, but also your corporate logo, photos or other graphics. With HERMA Label Designer plus software or the HERMA labelling set for CDs, you'll be able to create effects such as these with ease.

See pages 76-77 for details.

CD and DVD cover inlays, card, non-adhesive, microperforation

HERMA identification labels – to help you know what goes where

A clear organization system is essential for efficient office work, production and administration.

HERMA offers a wide range of solutions for efficient labelling, marking, numbering and organizing. For folders, files and storage areas. For planning, documentation and reports.

HERMA labels provide safety and give guidance. They help you find your way indoors and outdoors, and they clearly identify products and property.

Signs

Pricing and product labels

Signalling and information labels

Decorative labels

Outdoor and hard-wearing labels

Security labels

HERMA Movables®. The more versatile labels.

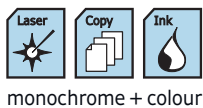

Stick on. Peel off. Stick on. HERMA labels based on the unique Movables® technology adhere securely to any surface and peel off without residue.

Ideal for temporary or frequent-change labels and for fragile surfaces. And if the label is positioned wrong, no worries – simply peel it off and stick it on again. Also available in a convenient office pack if you need to write labels by hand (see page 94).

Removable labels (Movables® Technology)

The more versatile label. Labelling is now easier, more reliable and more flexible.

- Reliable adhesion on a wide range of surfaces (smooth, dry, undamaged, dust-free)
- Residue-free removal without damaging the surface
- Problem-free repositioning, adheres again several times
- Economical: print single labels with "single-print" template
- Reliable processing, even on high-speed printers and colour laser printers
- 100% recyclable, dispose of as for waste paper

HERMA Movables®: Economy with "single-print"

Labels can be printed individually for the first time using our Movables® technology, a highly efficient and economical labelling solution. With HERMA Movables® technology labels can be affixed to the "single-print" template, printed individually, and then simply removed and affixed as required. The remaining labels on the sheet can therefore still be used at a later date.

www.herma.com/single-print

HERMA Labels made of 100% recycled paper, awarded the Blue Angel ecolabel.

Great for the environment and for the climate

HERMA labels have the Blue Angel ecolabel. That's because both the label paper and the backing are made exclusively from recycled paper. The natural white label material is unusually bright, with high purity. Only top-quality wastepaper is used, allowing processing without chlorine bleach and whitening agents.

The paper fulfills the requirements of DIN 6738 (age resistance). The water-based adhesive is free of plasticizers, acids and solvents, and the packaging is made of recycled cardboard. By using recycled paper HERMA reduces the amount of logging in our forests. This is an important contribution to forest conservation and protection. HERMA conserves energy and natural resources in production.

Labels made of recycled paper, with the Blue Angel ecolabel

38.1 x 21.2	48.3 x 25.4	63.5 x 38.1	70.0 x 36.0	70.0 x 37.0	99.1 x 33.8

210.0 x 148.0	210.0 x 297.0	192.0 x 38.0	192.0 x 61.0		

Awarded the Blue Angel ecolabel:

- Labels and backing paper made from 100% recycled paper
- High brightness and purity thanks to wastepaper selection and special processing, without the use of chlorine bleach or whitening agents (brightness ISO 97% / CIE 133)
- Smooth surface, high covering capacity
- Water-based, solvent-free adhesives; plasticizer-free and acid-free, safe to use with all foods
- 100% recyclable

HERMA Inkjet labels – impressive labels for photo quality.

The special paper is what makes the difference:
HERMA Inkjet labels are made of specially finished,
coated 90 g paper. Superior photo-quality prints
become a reality.

Instant drying and wipe resistant, in black and white and
colour, due to special coating. The printed result is razor-
sharp; small fonts and barcodes are clearly defined. The
border on all sides permits the labels to be printed over
the whole area. It also ensures trouble-free running, even
with paper tracks that are less than reliable.

Inkjet labels, photo-quality

Specially designed for inkjet printers – special coated paper 90 g/m².

- Photo-quality, dries instantly, wipe-resistant
- Razor-sharp contours, brilliant colours
- All-round border permits full-size printing
- Glitch-free printing even with paper guides that are less than reliable

 Sheet with border on all sides

Conspicuously robust.

Ideal for custom-designed outdoor signage. HERMA signs in white polyester film are extremely hard-wearing and adhere even to critical surfaces securely and reliably. Whether information or warning signs, signposts, adhesive signs for display windows or identification labels in warehousing and production facilities, you can custom-design them on your PC and print them out cost-effectively. The weather-resistant labels are temperature and ageing-resistant and made from extremely robust, tear-proof, wet-wipeable material.

High visibility.

The new signal signs made of yellow polyester film are highly visible, even when printed in black-and-white.

The white and yellow weather-resistant labels are temperature- and ageing-resistant and made from extremely robust, tear-proof, wet-wipeable material.

Made to last.

Rating plate labels are a means of labelling inventory and parts permanently and dependably. With HERMA's stainless steel-look pictogram labels, creating your own signs for doors and cabinets is easy.

The labels have extremely strong adhesion, even on critical surfaces. The matt foil is weatherproof and resistant to ageing. It repels oil and dirt, is wet-wipeable, and resistant to temperatures between -40 °C and +150 °C.

Excellent and all your own work.

You can even design your own indoor signage with the greatest of ease with HERMA. Removable signs using Movables® technology are the ideal solution for short-term notices or fragile surfaces. They adhere to any surface, peel off without leaving residue and adhere again several times. Ideal as house or office-moving labels, signs for meeting rooms, on doors or lifts, for conferences and events or promotions.

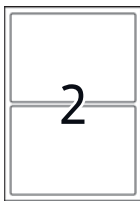

Double strength.

Power label signs adhere twice as strongly as conventional paper labels. Perfect for work instructions, contents lists in cabinets, inscriptions on medical cabinets and many other uses.

Rating plates: label inventory and components permanently and dependably.

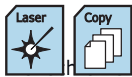

These silver labels are ideal for the permanent labelling of components and rating plates and for use in inventories. They have extra strong adhesion, even on critical surfaces. The matt foil is weatherproof and resistant to ageing. It repels oil and dirt, is wet-wipeable, and resistant to temperatures between -40°C and +150°C.

Rating plate labels, silver, extra strong adhesion

Ideal for permanent labelling of components, rating plates and objects in inventories.

Distinctive and customised.

You can design your own indoor signage with the greatest of ease with HERMA – from the text right down to the colour. Quick, personalised and cost-effective. Removable signs using Movables® technology are the ideal solution for short-term notices, temporary signs or fragile surfaces. If you need your notice to adhere extra firmly, Power Label signs are the right solution for you. Signs in yellow, red, blue, green and luminous colours are a good way of conveying important information.

Removable signs for indoor use (Movables® technology)

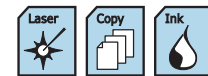

105.0 x 148.0 199.6 x 143.5 210.0 x 297.0

Ideal for short-term notices and fragile surfaces.

- Reliable adhesion on a wide range of surfaces (smooth, dry, undamaged, dust-free)
- Residue-free removal without damaging the surface
- Problem-free repositioning, adheres again several times
- 100% recyclable, dispose of as for waste paper

Rapid, flexible production of professional-looking price labels.

You get top-quality printing results and the sharp contrast which is vital for barcodes and small print, and all with the label of your choice.

- Labels with Movables® technology adhere firmly to all surfaces and peel off without leaving residue or damaging substrates, even on fragile surfaces
- Power labels offer the best possible protection against price tampering thanks to their extra-strong adhesion
- Jewellery labels are the perfect choice for price-tagging jewellery, glasses and other products of small diameter. The non-adhesive middle section allows the label to swivel around the object
- Tags make great product and price labels for textiles. They are made of robust material, are quick and simple to detach thanks to the microperforations and easy to affix thanks to the ready-punched hole

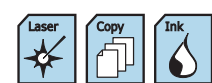

And with HERMA's free software solutions, you can design your own labels simply and flexibly. www.herma.com/software

Removable price labels (Movables® technology)

17.8 x 10.0	25.4 x 10.0	25.4 x 16.9	35.6 x 16.9	38.1 x 12.7	38.1 x 21.2

Jewellery labels, special perforation, non-adhesive middle section

Ideal for pricing rings, clocks, jewellery, glasses and small-diameter objects (e.g. cables).

- Simply loop the non-adhesive middle section around the object and press the adhesive surfaces together – done
- After the backing paper has been removed from the middle section, the two halves adhere over the whole surface.
- 100% recyclable, dispose of as for waste paper

monochrome + colour

When it comes to customised labelling of high-quality products and packages, HERMA has the perfect solutions: labels made of transparent film – either matt or crystal-clear – and labels made of glossy gold and silver foil. They give products that extra-special look. They can be printed in excellent quality with all laser printers and copiers, in both black-and-white and colour. For attractive identification of products, high-gloss white labels are another excellent choice. Logos, brand designs or advertising messages are guaranteed to stand out. You'll find details on pages 60-64.

Paper labels are also great for attracting attention, and they come in special shapes: round, oval and square. Featuring Movables® technology, they peel off any surface without leaving residue and are especially suitable for objects with delicate surfaces. You'll find the full range of products on page 59.

- Rounded corners
- Sheet with border on all sides
- Label paper made of PEFC-certified raw materials

Tags make great product and price labels for textiles.

They are made of robust material, are printable on both sides, quick and simple to detach thanks to the microperforations, and easy to affix thanks to the ready-punched hole.

Thanks to their hard-wearing material, these tags are suitable for all applications in production, warehousing and dispatch. They are especially helpful where self-adhesive labels cannot be used:

- as shipping tags on security tape and lattice box pallets
- for indicating material flows (tags accompanying merchandise)
- on pipes, wire, profiled sections, coils or spools
- or for labelling large containers and workpieces

The tags can be attached using nylon thread, wire or string. Labelling pistols can also be used.

Robust tags, non-adhesive, with perforation

Grab some attention

Bring some colour into your office. Not just for appearances – coloured labels have practical advantages too:

- Colour identification facilitates organization of documents, samples, dispatch papers, etc.
- Colours draw attention to important notices such as warnings, rush notices or messages on letters or packages like “New telephone number”, “Urgent”, “Caution: Glass” or “Promotion”
- Coloured labels are ideal for promotions and conspicuous labelling, for example in warehouses and logistics and all kinds of colour codes
- Available in yellow, red, blue, green and special luminous colours (page 58)

Coloured labels

Coloured labels create order and clarity.

- Ideal for important notices and promotion stickers
- Best printing results and reliable processing on all PC printers and copiers
- Reliable adhesion on all surfaces
- For labels used as signalling devices, e.g. warning notices, urgent memos, change of address, coloured coding, promotions, etc.
- In yellow, red, blue or green

No-label effect: labels that look invisible.

Transparent labels from HERMA are virtually invisible – the inscription looks as if it is printed directly on the support. Quality, professional look, very versatile. Ideal for coloured backgrounds and applications where visual appearance is important, for example coloured envelopes and folders as well as for inscriptions on stylish documents, for drawers and cabinets, for identifying documents, notices on desktop accessories, and for identifying property and products.

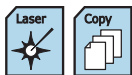

Transparent labels, matt

Virtually invisible once applied.

- Versatile: use wherever a white label would spoil the effect
- Ideal for coloured backgrounds, glass or porcelain, stylish documents, updating or addressing
- Special laser coating for top-quality toner fixing
- Best printing results and reliable processing on laser printers and copiers, in black and colour
- Reliable adhesion on all surfaces
- Weather-resistant, oil and dirt-repellent, wet-wipeable

Clear as crystal: stylish look

Crystal-clear labels made of glossy material are perfect on glass, shiny surfaces, plastic and metal. When used for advertising on high-quality products, they add an exclusive touch. They are also effective as sender labels on glossy presentation folders.

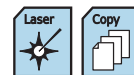

The glossy material is almost transparent after application. The labels can be printed individually in black or colour, with logos or graphics. The adhesive is repositionable for a short time after application, permitting correction of mistakes.

Transparent labels, crystal-clear, high-gloss

Clear as crystal: stylish look.

High-gloss labels for inkjet printers, photo quality

High-quality glossy paper: premium photo-quality paper with gloss effect.

- High-quality, colour-intensive labels for a wide variety of applications: product presentations, photographic prints, presentation folders, stylish corporate or advertising labels and much more
- Instant-drying, extremely wipe-resistant, lightfast, opaque and cold-resistant
- Pin-sharp image reproduction with optimum colour brilliance

210.0 x 297.0

A4 format, can be custom-printed and tailored to suit the object in hand

HERMA labels for outdoor use – when the going gets tough.

When labels are used outdoors or in rugged applications, the material must be one hundred percent reliable.

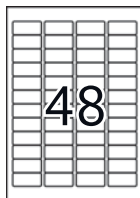

HERMA labels made of outdoor adhesive film with extra-strong adhesive strength prove what they're worth even in extreme conditions. They are weather-resistant and age-resistant.

The label material consists of dirt-repellent, wet-wipeable polyethylene film. The labels have proved their quality in outdoor applications and wherever conditions are especially harsh. And you can really count on them whenever labels need to stick permanently – for example, labels with crucial product information, property labels, or hotline, security or warning notices.

Suitable for all surfaces including metal and plastic and for critical substrates (rough, moist, cold, warm, dusty). The film is suitable for all laser printers and copiers and provides best printing results whether in black-and-white or colour.

Outdoor film labels, polyethylene film, weatherproof, extra strong adhesion

45.7 x 21.2

63.5 x 33.9

99.1 x 42.3

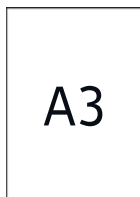

99.1 x 139.0

210.0 x 148.0

210.0 x 297.0

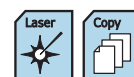

420.0 x 297.0

Labels in white polyethylene stretch film. Ideal for outdoor applications and exposure to harsh conditions.

- Extremely strong adhesion, even on critical surfaces
- Weather-proof, age-resistant, oil and dirt-repellent, wet-wipeable, temperature-resistant from -40°C and +150°, saltwater-resistant
- Ideal for outdoor labelling of merchandise, adhesive signs for display windows, property labels on sports equipment, information and warning signs, identification of items in storage and production facilities, containers, etc.
- Best printing results and reliable processing even on colour laser printers and colour copiers

⁵⁾ full-size printing (distance between the labels)

Strong performance even under tough conditions

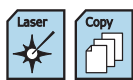

Water, oil, dirt, extreme temperatures – that's no problem for these hard-wearing labels in white polyester film. Their rugged, weather-proof surface can withstand the harshest conditions, whether outdoors or in, wherever conventional paper labels are not up to the job. They have ultra-strong adhesion to any surface. The special laser coating provides for dependable toner fixing and excellent printing results, even on colour laser printers and colour copiers. Ideal for permanent property labelling, shelf labels in storage and production, signage, etc.

**Hard-wearing labels, polyester film, strong adhesion**

Labels in white polyester film. Ideal for conditions where labels are subject to high stresses, permanent labelling as well as outdoors.

- Hard-wearing, weather-proof surface, extra-strong adhesive
- Weather-proof, age-resistant, oil and dirt-repellent, tear-proof, wet-wipeable, resistant to temperatures between -30°C and +80°C
- Labelling of merchandise; identification labels, adhesive signs for display windows; information and warning signs; identification of items in storage and production facilities
- Best printing results and reliable processing, even on colour laser printers and colour copiers

HERMA Power labels

The labels of choice for difficult adhesion conditions

HERMA Power labels have twice the adhesive strength of conventional paper labels. They adhere strongly even on moist, warm, cold, rough or dusty surfaces. For indoor use. For reliable labelling of products, documents and objects in inventories. For safety messages, warning messages, wrap-around labels, test badges or seal labels.

The high-quality label paper ensures excellent printing results on all PC printers and copiers, in black and colour. And of course, it's friendly to the environment: made of chlorine-free bleached, PEFC-certified paper with solvent-free adhesive.

Power labels, paper, extra-strong adhesion

HERMA Power labels have twice the adhesive strength of conventional paper labels. They adhere strongly even on moist, warm, cold, rough or dusty surfaces.

- Ideal for reliable labelling of products, documents and objects in inventories, for safety messages, warning messages, wrap-around labels, test badges or seal labels. Indoor use.
- Best printing results and reliable processing, even on colour laser printers
- 100% PEFC-certified label material from sustainable forest management
- 100% recyclable, dispose of as for waste paper

Extremely strong adhesion – for outdoor use

HERMA Outdoor film labels are the perfect choice for outdoor use. The extra-strength polyethylene film is weather resistant, resistant to ageing and UV light, oil and dirt repellent, wet wipeable, and resistant to temperatures. Ideal for outdoor use in adverse conditions. Suitable for laser printers and copiers – black or colour. See page 65.

□ Sheet with border on all sides

▲ Label paper made of PEFC-certified raw materials

Absolutely tamper-proof

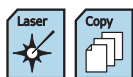

Security/seal labels in white polyester film are ideal for guaranteed seal. When they are removed, a white grid pattern separates from the label. Once removed, the label can no longer be affixed in the original position or transferred to other objects. No manipulation attempt goes unnoticed.

Ideal for inventory labels, for tamper-proof sealing of devices, data media, documents and switches, for labelling products and as test badges and guarantee seals.

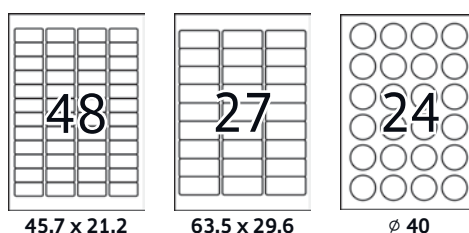

**Security labels, white polyester film with anti-tamper facility**

Effectiveness guaranteed – no manipulation attempt goes unnoticed.

- Visible residue left behind when removed, providing security
- Cannot be transferred to other objects
- Tear resistant, oil and dirt repellent, temperature resistant, not suitable for use outdoors
- Ideal for sealing devices/appliances, data storage media and documents, for labelling original products, for use as a test badge or as a guarantee and maintenance seal
- Minimum adhesion time: 30 min. Unsuitable for materials that split easily (e.g. paper, cardboard etc.) and synthetic materials containing plasticizer
- Testing recommended for substrates with poor adhesion (e.g. polypropylene)
- For black-and-white laser printers and copiers

HERMA LabelAssistant online.

For easy designing of labels.

- no need to install software; ideal for company networks
- select a format, design a label, print PDF – done
- universal and flexible, for all HERMA formats
- large selection of individually modifiable design templates
- save labels locally and modify them later
- barcode and serial numbers can be generated from Excel; mail merge from Excel also possible
- efficient template management: save templates online and share them with colleagues and friends
- labels in your company design: create labels quickly and easily with the Corporate Design Generator
- guided tour – interactive help function

Label software

Label Designer plus version 3.0, GOLD EDITION

The professional label software with a wider range of functions.

Design and print labels professionally, conveniently, and quickly with texts, frames, lines, circles, colour progressions, graphic elements, barcodes, serial numbers, and photos. Many special functions such as round text, calculator, banner lettering, extensive image-processing, automatic reading of media storage structures, database and graphics importation, integrated database with export function, and OLE support. Exact printer adjustment for accurately positioned print-outs. Every label in the sheet can be designed separately. Convenient print control. Many pre-designed templates and clip-arts. For a wide range of uses in the office, home office, production, warehouse, dispatch. All HERMA formats are conveniently pre-defined and individual formats can be added easily. Detailed manual on CD-ROM, context-sensitive online help.

New in Version 3.0:

- more image-processing functions, e.g. special effects, photo effects, image cropping
- new text tools, e.g. colour management with RAL shades and calculator function (includes date)
- optimised print functions, e.g. ink-saving function for round labels
- greater convenience in use, e.g. opening/saving of multiple documents, document and database export
- direct connection to the Internet (for registration, information, support, and format updates)
- unlimited hotline support for registered customers
- downward compatibility with HLD plus 1.1 and 1.0
- more than 500 cliparts/images
- more than 500 pre-designed templates from many areas of application
- with many labels

Description	Ref. no.
Label Designer <i>plus</i> 3.0, GOLD EDITION (German)	8341
Label Designer <i>plus</i> 3.0, GOLD EDITION (International*)	8347

* German, English, French, Dutch, Italian, Spanish and Portuguese

System requirements:

Windows XP, Windows 7, Windows 8
Pentium 120 MHz or higher, resolution 800x600 (16-bit),
150 MB free hard disk space, CD-ROM drive,
printer, single-user installation (with network capability)

Windows is a registered trademark of the Microsoft Corporation.

Labelling set for CDs

Easy and professional designing of CD labels.

Complete package: CD labels + software.

The software contains all HERMA labels.

- numerous tools for designing texts (e.g. circular text and banner headlines), also in colour
- automatic read-in of file structures
- extensive image processing options, direct scanning
- arrangement of various layouts on one sheet
- exact printer adjustment for accurately positioned print-outs
- OLE features: data from standard Windows programs can be used directly (e.g. CorelDRAW, WordArt)
- with many clipart objects, photo files and examples
- Windows XP, Windows 7, Windows 8
- detailed manual on CD-ROM, context-sensitive online help

Description	Ref. no.
50 CD labels, 116 mm Maxi, white + software	8381

See page 36 for an overview of CD labels.

Software in German, English, French, Dutch, Italian, Spanish and Portuguese – one CD!

Labelling set for files

Easy and professional designing of file spine labels.

Complete package: file spine labels + software.

Functional and efficient, with almost unlimited design features. The software contains all HERMA labels.

- numerous tools for designing texts (e.g. banner headlines and text rotation), also in colour
- colour progressions, frames, lines, stars,...
- using of company logos
- highlighting using graphics
- counter function for automatic numbering of lever arch files
- comprehensive alignment functions
- arrangement of various layouts on one sheet
- exact printer adjustment for accurately positioned print-outs
- Windows XP, Windows 7, Windows 8
- detailed manual on CD-ROM, context-sensitive online help

Description	Ref. no.
100 labels for wide files, 192 x 61 mm, white	8373

See page 30 for an overview of file spine labels.

Software in German, English, French, Dutch, Italian, Spanish and Portuguese – one CD!

Labels for the office, production and logistics

For a wide range of labelling applications. Whether it's in the office, dispatching or production: HERMA has solutions that increase efficiency and open up new possibilities.

Continuous computer labels	80-85
-----------------------------------	--------------

Address labels for typewriters	86-89
---------------------------------------	--------------

Franking labels	90-93
------------------------	--------------

Multi-purpose labels	94-103
-----------------------------	---------------

Movables® adhesive labels	94-95
With permanent adhesive, in small packs	96-103
With permanent adhesive, in office packs	96-103
Special types	103
Adhesive paper, DIN A4	103

Labels for printing presses	104-113
------------------------------------	----------------

Standard formats DP 1, DP 4	104-113
Customized labels (in Germany only)	112-113

Labels on rolls	114-115
------------------------	----------------

Other office items	116-123
---------------------------	----------------

Number labels	116-117
Text labels for file identification	117
Letters and numbers	118-120
Text and information labels	121
Name labels	122
Reinforcement rings	122

Textile labels / strung marking tags	125
Ready-made clothing tags, strings and barbs	125
Tags, for laser printers and copiers	126

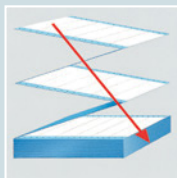

HERMA computer labels – Endlessly reliable, for every application.

Professional continuous labels for reliable and efficient labelling.

Absolute reliability:

- no jamming, optimum release, no self-dispensing effect
- trouble-free printing of large quantities
- guaranteed endless, from the first label to the last
- no interruption of the stack
- excellent refolding after printing

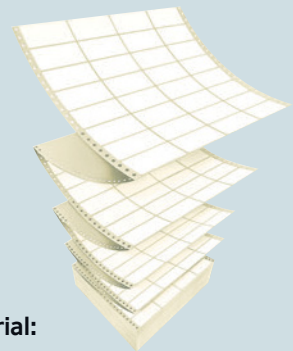

Perfect quality:

- excellent adhesion, even on critical surfaces
- wood-free writing paper, white or coloured, 75 g/m²
- proven HERMA know-how

For office, logistics and production:

- self-adhesive, with sprocket holes
- numerous formats, in small and economy packs
- single-row and multiple-row
- special types, such as coloured and removable labels

Environmentally friendly material:

- labels and backing paper made from chlorine-free bleached cellulose
- solvent-free adhesive

Guaranteed endless, from the first label to the last
 HERMA computer labels are carefully manufactured for trouble-free running in data processing applications. The special HERMA advantage: they're guaranteed to be endless, which eliminates stack interruptions. Large print jobs are no problem.

Removable labels For labels bearing time-limited or changing information, e.g. product and price data, or for marking shelves, storage bays and articles with delicate surfaces.

HERMA address labels – For making sure the post gets there.

HERMA address labels are optimized for conventional labelling with typewriters and address printers. They are available in a wide range of types: single, in rolls, fanfolded or on A4 sheets, with round or square corners. Special labels for printers are shown starting on page 16.

Easy addressing:

- high-quality wood-free label paper
- reliable self-adhesion
- opaque quality
- friendly to lift-off correction tape
- labels and backing paper made from chlorine-free bleached cellulose
- solvent-free adhesive

Address labels

- individual labels for addresses and franking stamps
- for typewriters and address printers
- the material and format are coordinated to permit addition of a smudge-proof franking stamp

individual labels for addresses and franking stamps

HERMA franking labels – Quite frankly, the best.

Indispensable in the mail room: HERMA franking labels. They're the ideal self-adhesive solution for indirect franking of large-format letters, packages and mailing tubes. Safe to use on all franking machines. Available single, double or in rolls.

Other features for ease of use:

- special white paper, absorbent and smudge-proof
- labels and backing paper made from chlorine-free bleached cellulose
- solvent-free adhesive
- reliable adhesion on all surfaces
- safe to use on all franking machines

See pages 92-93 for an overview
of franking machines

Space for additional printed text such as company logos should be taken into account when choosing label size.

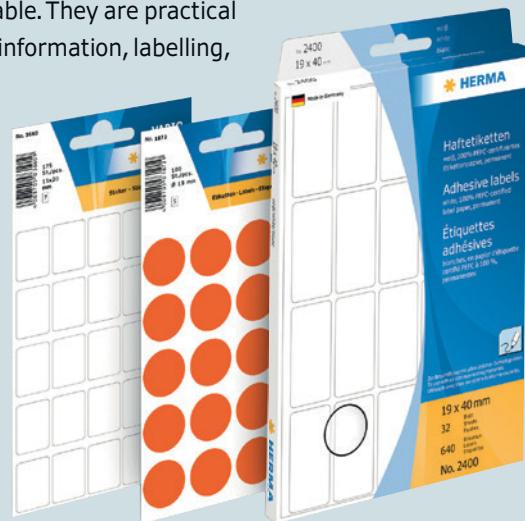

★ in cardboard dispenser for Francotyp EFS 3000 and Postalia NEF 300, label size without tab edge 157 x 41 mm.

HERMA multi-purpose labels – For a wide variety of applications.

HERMA multi-purpose labels quickly make themselves indispensable. They are practical aids for all kinds of everyday tasks: calling attention to important information, labelling, organizing, scheduling and planning.

HERMA multi-purpose labels are available in many forms:

- as HERMA Movables®, removable without residue, adhere again several times
- or with permanent adhesive
- as jewellery labels
- as sealing labels
- as self-adhesive paper
- and in practical assortment packs

Ideal for quick hand lettering ...

... or for labelling and marking.

HERMA Movables® adhesive labels

The more versatile label. Labelling is now easier, more reliable and more flexible.

- reliable adhesion on a wide range of surfaces
- residue-free removal without damaging the surface
- problem-free repositioning, adheres again several times
- environmentally friendly: labels and backing paper made from chlorine-free bleached cellulose; solvent-free adhesive
- in office packs, for hand lettering (page format approx. 110 x 170 mm)
- not suitable for PC printers. For PC printing, use removable labels (Movables® technology), starting page 42

Multi-purpose labels / Colour dots

Adhesive labels, permanent

Indispensable everywhere, at any time: for signalling important information, labelling, organizing, scheduling and planning,...

- large variety, white and coloured, permanent adhesion
- high-grade label material
(white, 75 g/m² or coloured, 80 g/m²)
- when small quantities are needed: small pack (sheet format approx. 84 x 120 mm, depending on the format)
- when large quantities are needed: economical office pack (sheet format approx. 111 x 170 mm, depending on the format)
- assortments for flexible labelling and marking
- environmentally friendly: labels and backing paper made from chlorine-free bleached cellulose; solvent-free adhesive
- Not suitable for PC printers. For PC printing, use HERMA PREMIUM labels, starting page 16
- larger quantities: see "Labels for printing presses" starting on page 104

Note: New Ref. numbers. Product characteristics and quality are unchanged. HERMA A4 adhesive paper is now available in the SPECIAL A4 labels range – clearly structured and more customer-friendly than ever before. See pages 56 and 57 for other HERMA SPECIAL labels.

210 x 297

HERMA labels for printing presses – Mounted true to register, with high precision: Perfection for professionals.

HERMA adhesive labels in printer packs are manufactured with the special requirements in printer shops in mind.

Special features for printers:

- high-quality, wood-free writing paper, 75 g/m², in economy packs
- three sheet formats – DP1, DP4 – mounted true to register, with feeder margin
- each pack contains two extra sheets for setting-up operations
- large selection of forms, colours and luminous colours
- all formats with rounded corners

Special features for users:

- excellent adhesion, even on critical surfaces
- many special types: brilliant labels, removable adhesive labels, jewellery labels
- environmentally friendly materials: labels and backing paper made from chlorine-free bleached cellulose
- Label paper made of PEFC-certified raw materials

Information for experts:

DP1 – sheet format approx. 168* x 120 mm
(*the length of DP1 sheets varies in accordance with label size. The sheet sizes and register, however, are absolutely identical for each type.)

DP4 – sheet format 240 x 322 mm,
standard pack of 250 sheets.
In round quantities of thousands.

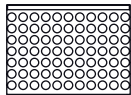

A4 adhesive papers for individual processing: see page 103
For PC-printable labels see page 16

HERMA labels on rolls – for convenient continuous labelling.

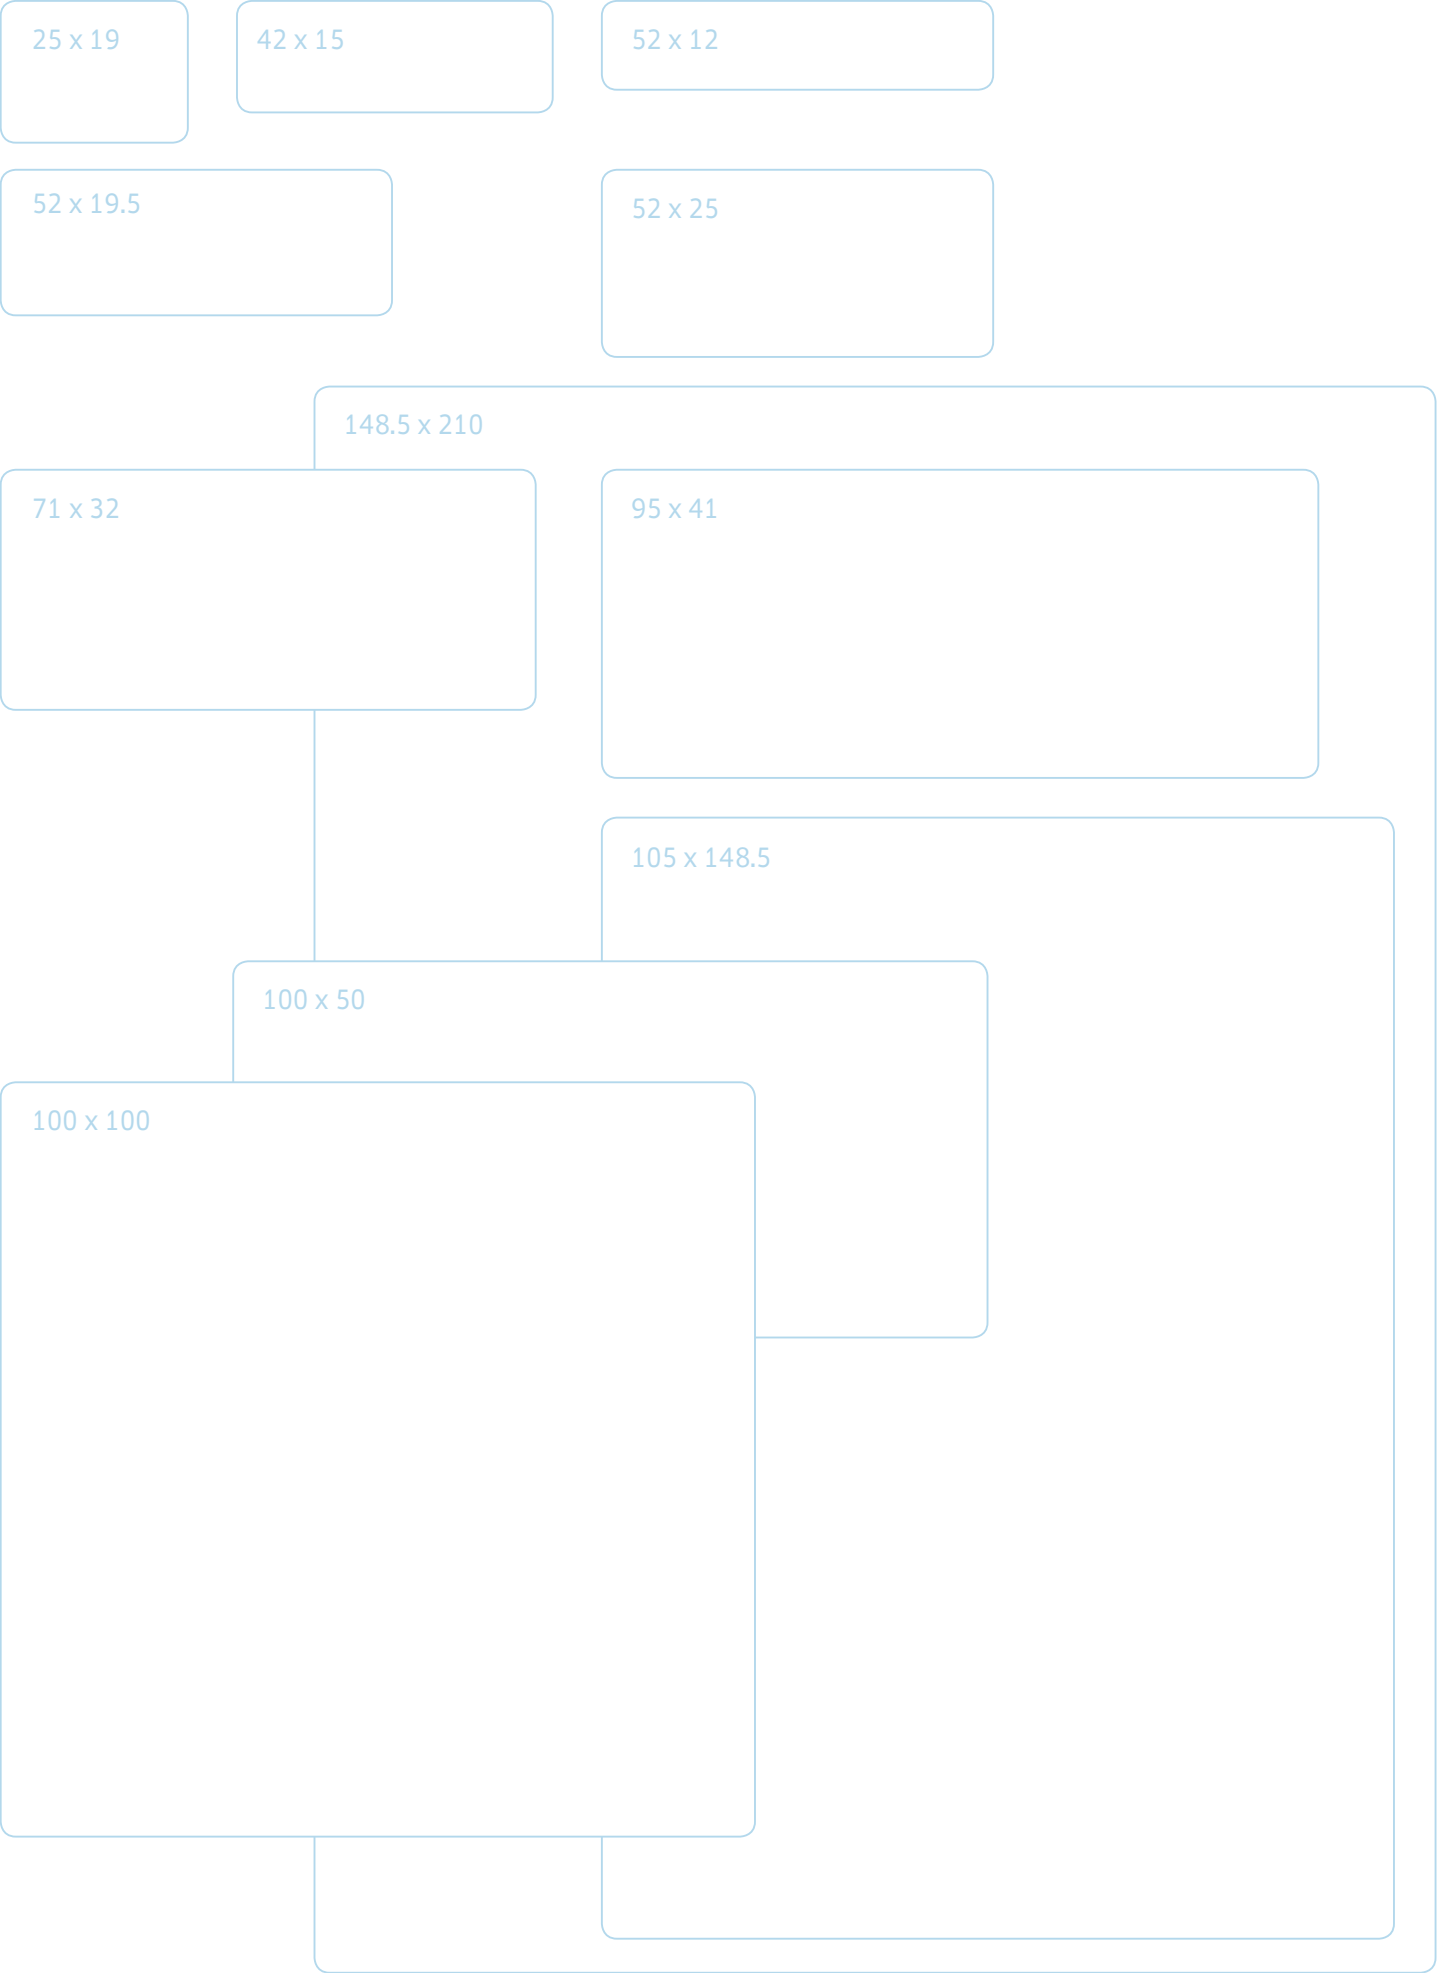

Self-adhesive labels one by one from the roll – for thermal transfer printing with marking machines and labellers. A wide range of current formats. Ideal for all product marking applications.

- Advanced roll technology permits easy handling
- High-quality papers for razor-sharp contours
- Full compatibility with other processing equipment
- No jamming or self-dispensing
- Easy removal from backing
- Secure adhesion to all surfaces
- Labels and backing paper made of chlorine-free bleached cellulose, solvent-free adhesive

Other office items

Name labels

Self-adhesive, made of white acetate silk.

- flexible textile material, reliable adhesion, easy to remove
- a handy alternative to plastic badges: quick marking/in-scription, firm adhesion without a pin or clip
- ideal for use at seminars, conferences, trade fairs
- caution: these labels should not be applied to fine leather or textiles such as silk or velvet as they may leave marks
- name labels are also available on A4 sheets: ideal for printing with a laser printer or copier. See page 72.

Double-length string, white, length 7 cm, with metal barb, knotted.

- 10 bundles of 100 each

Label format (mm)	Description	Items/ pack	Ref. no.
70	double-length string, set of 100	1000	6800

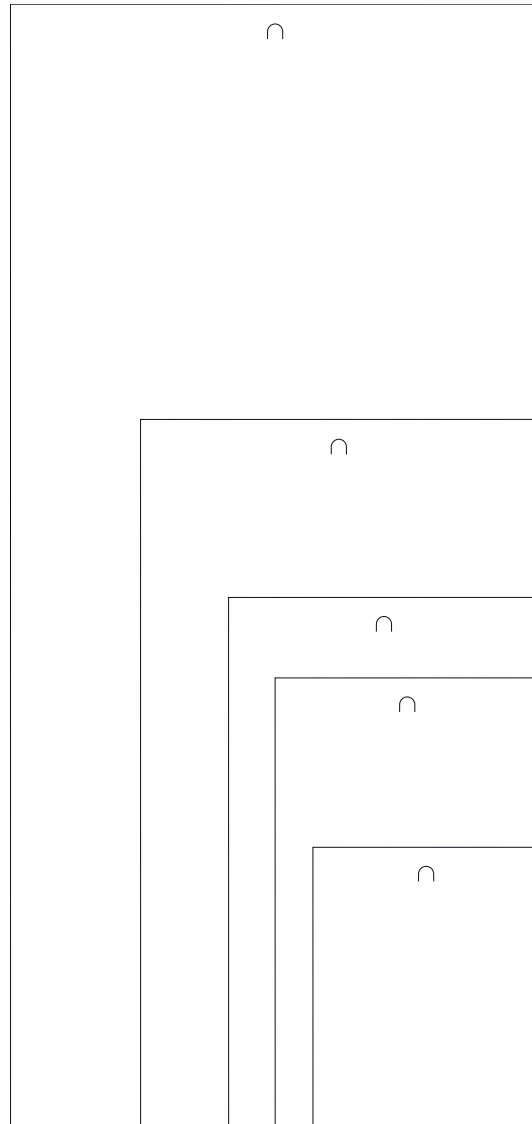

Goods identification

Printable tags

Ideal as product and price labels on textiles.

- Made of robust paper/film/paper laminate
- Fast and easy to detach thanks to microperforations
- With pre-cut hole; simple to attach with a labelling pistol or with strings and barbs
- Best printing results and reliable processing even on colour laser printers

Format (mm)	Description	Items/ pack	Ref. no.
30.0 x 37.0	paper/film/paper, with hole	5600	8044
35.0 x 59.4	paper/film/paper, with hole	3000	8046
42.0 x 70.0	white, tear-resistant paper/film/paper laminate, perforated	2000	6871
52.5 x 93.5	white, tear-resistant paper/film/paper laminate, perforated	1200	6872
70.0 x 148.5	paper/film/paper, with hole	600	8047

Rapid, flexible production of professional-looking price labels.

You get top-quality printing results and the sharp contrast which is vital for barcodes and small print, and all with the label of your choice.

- Labels with Movables® technology adhere firmly to all surfaces and peel off without leaving residue or damaging substrates, even on fragile surfaces
- Power labels offer the best possible protection against price tampering thanks to their extra-strong adhesion
- Jewellery labels are the perfect choice for price-tagging jewellery, glasses and other products of small diameter. The non-adhesive middle section allows the label to swivel around the object

For detailed information see pages 53-54.

Shops & Displays

The best goods displays are based on a system - customer-friendly, clear and well-structured.

HERMA at the POS: Making the most of scarce sales spaces

The HERMA Shop System is the ideal way to present products - compact, clear, self-explanatory and sales-promoting too. It makes optimum use of space and raises product turnover - while its modular design makes it extremely flexible and expandable.

The basic 1-metre wide unit of this modular system - which can be extended to several metres - offers an ideal platform for clear display of labels, mounting aids, albums, insert sheets, school products and decorative stickers.

Product holders – versatile, flexible and effective:

The individual product holders are designed to fit HERMA Shops and can also be incorporated into existing shelf systems.

The heart of the A4 products display:

The new projecting display module, with its seven diagonal dividers and one front-facing compartment displays 8 different products. The front-facing compartment is ideal for promotion packs, new products and best-sellers. The packaging design is ideal for self-service and displays products clearly. All sales-relevant product information is visible at a glance, no need to pick up the pack.

Eye-catching:

High-visibility top sign and lighting system* with stylish halogen spotlights.

Excellent organisation:

Each compartment has an insert card with the product name, format and article reference under a protective plastic cover.

For 100 and 200-sheet packs:

The eight-compartment base display module can also be placed on shelving already installed.

Plenty of room in the base:

On castors drawers* can be put in the base to stock products for rapid refilling of compartments.

* Optional extra

Space for everything: the shelf set, with its transparent price rail, lets you display other label products, or even mounting aids, albums, school products or decorative sticker displays.

And last but not least, highly versatile displays offer an ideal solution for either permanent goods presentation on your existing shelving, on the counter or sales-promoting second displays. On the following pages you will find some examples.

Shops & Displays

HERMA Shop System “Labelling”

Versatile shelving in elegant, functional design making optimum use of space. Modular displays for sales-promoting display of HERMA PREMIUM and HERMA SPECIAL label. The halogen lights are an optional extra.

- versatile, flexible-usage
- clear presentation, ideal for self-service
- all sales-relevant packaging information visible at a glance
- efficient use of space

1-metre, 2-metre or 3-metre versions of shops available.
Choose your own selection of products.

Units

Gründe für Erfolg Reasons for success Raisons pour réussir

1 Riesige Motivauswahl,
600 x facettenreich
und marktorientiert.

A huge selection of designs,
600 different products geared
to the market.

Énorme choix de motifs, riche
de 600 facettes et adapté
au marché.

2 Europäisches Sticker-Design,
überzeugend, liebevoll und
detailgenau.

European sticker design,
outstanding, attractive, with
accurate details.

Design de stickers européen,
convaincant, charmant et fidèle
jusque dans les moindres détails.

3 Saisonale Highlights,
durchdachte Produktlinien
für Schule, Weihnachten,
Valentin, Haushalt
uvm.

Seasonal highlights, well-thought-
out product ranges for school,
Christmas, Valentine's Day,
household use and many other
applications.

Articles vedettes saisonniers,
lignes de produits bien
conçues pour la Saint-Valentin,
l'école, Noël, le ménage etc.

4 Standort Deutschland zählt!
Bei Design und Entwicklung,
schnelle Verfügbarkeit, clevere
Logistik auch bei Kleinstmengen.

It pays to be located in Germany!
Top-quality design and develop-
ment, quick availability and
efficient logistics.

Le site Allemagne compte !
Dans la conception et le dévelop-
pement, rapide disponibilité,
logistique astucieuse.

5 Vielfalt im Trend! Exklusive
Motive, tolle Materialien, und
passende Stickeralben.

Variety is always popular!
Exciting materials, exclusive designs
and sticker albums for every taste.

La tendance est à la diversité !
Matériaux de premier choix,
motifs exclusifs et albums de
stickers assortis.

6 Werbewirksam! Aufmerk-
samkeitsstarke, platzsparende
Warenpräsentationen.

Attention getters!
Eye-catching, space-saving
product displays.

Efficacité publicitaire ! Présentation
de produits attirant fortement
l'attention.

7 Fortschritt und Qualität
in allen Produktbereichen,
bei Verpackungen und Displays.

Advanced, high-quality
products in all areas,
including packaging and displays.

Progrès et qualité dans toutes les
gammes de produits, dans les
emballages et les présentoirs.

Face Art - hautnah dabei!
Glamourös, edel und bunt

Gestochen scharf und haufreundlich verwandeln die Face Art Sticker Gesichter in mystische Gestalten bunte Tiere, Filmsternchen, Party-Karnevalisten und Partyfans. Die perfekte Ergänzung fürs eigene Make-up.

Blitzschnell aufgeklebt, kein Verschmieren und auch nach der Party noch ein Hingucker! Dermatologisch getestet!

Face art - for all to see!
Glamorous, stylish and colourful

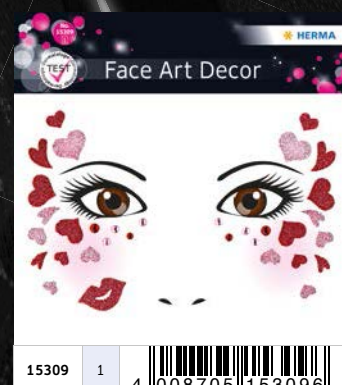

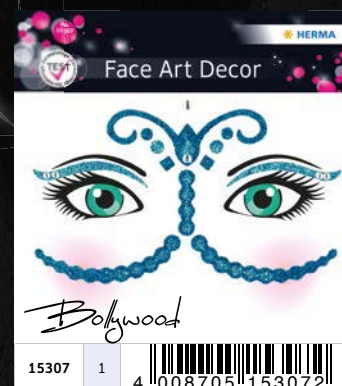

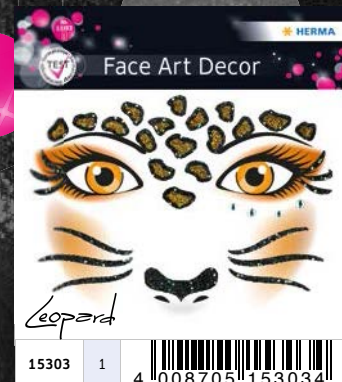

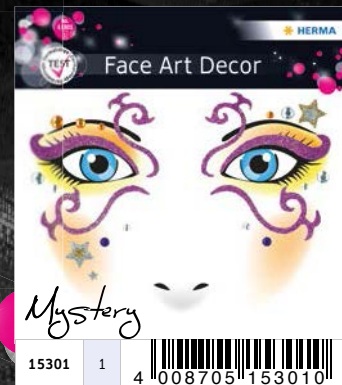

Face art stickers transform faces into colourful animals, film stars, carnival figures, mythical creatures and socialites. They're brilliantly sharp and friendly to the skin. A perfect makeup enhancement.

They can be applied in seconds and don't smear. Real eye-catchers at a party or any other event! Dermatologically tested!

Face Art -
pour faire bonne figure!
Glamour, chic et fantaisie

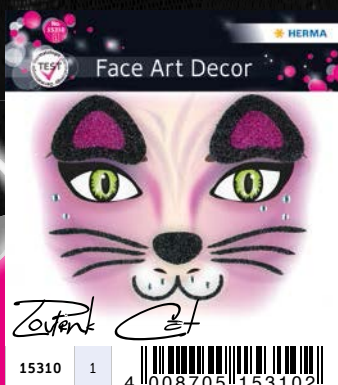

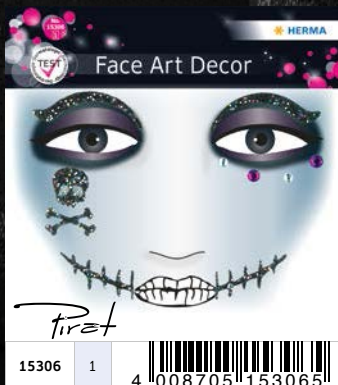

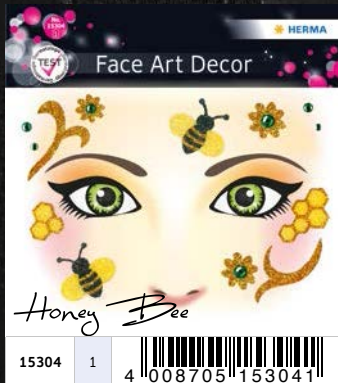

Les stickers Face Art transforment les visages en animaux bariolés, en starlettes, en personnages de carnaval, en figures mythiques et en fans de la fête. Leur bonne tolérance par la peau et leur brillante netteté en font un complément parfait au maquillage.

Ils s'appliquent rapidement et proprement, et sont encore un point de mire quand la fête est finie ! Testés sous contrôle dermatologique !

NEU

mit Hängeleiste
with hanging strips
avec suspensions

Gebrauchsanweisung:

1. Sticker vorsichtig abziehen und an der gewünschten Stelle aufkleben.
2. Ihr eigenes Make up macht das Ergebnis perfekt.
3. Die Sticker sind leicht entfernen. Sticker vorsichtig abziehen, anschließend das Gesicht mit Wasser reinigen.
4. Nicht für empfindliche Haut geeignet!

Instructions:

1. Carefully pull off the sticker and apply it where you want to.
2. Add your own makeup for perfect results.
3. The stickers are easy to remove. Pull off gently, then wash your face with water.
4. Not suitable for sensitive skin.

Mode d'emploi :

1. Retirer le sticker avec précaution et le coller à l'endroit souhaité.
2. Votre propre maquillage rendra le résultat parfait.
3. Les stickers s'enlèvent facilement. Décoller les stickers avec précaution, puis laver le visage avec de l'eau.
4. Ne conviennent pas aux peaux sensibles !

Groß und Klein kennen die munteren Spielkameraden mit ihren freundlich lächelnden Gesichtern. Reich ist die Auswahl an Themen. So auch im Stickerbereich. Da tummeln sich Prinzessinnen, Ritter und Piraten und warten nur darauf, Bücher und Hefte zu verschönern oder getauscht und gesammelt zu werden.

Everybody knows these happy fellows with their friendly smile. There's a wide selection of themes in the world of stickers: princesses, knights and pirates. They're just waiting to brighten up your books and exercise books. You can also collect and share them.

Les grands comme les petits connaissent ces joyeux camarades de jeu avec leur joli minois souriant. Le choix des thèmes est très grand. C'est aussi le cas pour les stickers. On retrouve des princesses, des chevaliers et des pirates qui n'attendent que de pouvoir décorer les livres et cahiers ou d'être échangés et collectionnés.

Hits bei Kids

Aufregende und coole Tattoos, die täuschend echt aussehen und mit denen man gerne Haut zeigt. Ob zum Ausgehen, für eine Party, einen Kindergeburtstag, zum Verkleiden, für ein Sportereignis oder einfach nur so.

Die wasserfesten „Tätowierungen auf Zeit“, einfach mit Wasser übertragbar und mit Hautöl leicht wieder zu entfernen.

Hits for kids

Exciting, cool tattoos that are deceptively realistic and fun to show off. For going out, for parties, for children's birthdays, for dressing up, for sporting events or just for fun. These water-resistant non-permanent tattoos can be transferred with water and are easy to remove with skin oil.

Succès chez les enfants

Des tatouages géniaux et cool qui ressemblent à s'y méprendre à des vrais et parent joliment la peau. Pour sortir, faire la fête, aller à un anniversaire, se déguiser, pour un événement sportif ou simplement pour le plaisir. Les « tatouages temporaires » résistants à l'eau, faciles à appliquer avec de l'eau et à retirer avec de la crème pour la peau.

HERMA-Sammelalben, außen mit edler Holographiefolie kaschiert und innen aus beschichtetem Spezialpapier, sind der ideale Schutz für Lieblingssticker. Sie können beliebig oft entnommen und wieder eingeklebt werden.

- DIN A5 hoch, 16 Seiten
- Einzeln eingeschweißt
- Eurolochung

HERMA sticker albums, laminated with holographic film on the outside and coated with special paper on the inside, are ideal for protecting your favourite stickers. Stickers can be removed or replaced as often as needed.

- A5 portrait, 16 pages
- Individually sealed in plastic
- Euro-standard holes

Les albums de classement HERMA, contrecollés à l'extérieur avec une noble feuille hologramme et en papier couché spécial à l'intérieur, sont la protection idéale pour les stickers favoris, qui peuvent être retirés et recollés à volonté.

- DIN A5 en hauteur, 16 pages
- Soudées individuellement
- Perforation européenne

Schöne Effekte und leuchtende Sterne

Von fröhlich bis feierlich und edel, von matt über glänzend bis hin zu bunt, vom Engel über den Nikolaus bis zu funkelnden Weihnachtssternen. Das himmlische Weihnachtsortiment sorgt rundherum für eine festliche Stimmung.

Ideal zum Verzieren, Dekorieren und Beschriften von Weihnachtspost und Geschenken.

Superb effects and bright stars

From merry to solemn, from matt to glossy, from Santa Claus to sparkling Christmas stars. The Christmas assortment offers perfect solutions for every occasion.

Ideal for decorating and lettering Christmas cards and gifts.

Beaux effets et étoiles fluorescentes

Motifs joyeux, solennels ou nobles, du mat au brillant ou bariolé, de l'ange à Saint-Nicolas et aux étoiles de Noël étincelantes. Le merveilleux assortiment de Noël garantit une ambiance festive à tous les égards.

Idéal pour orner, décorer et marquer le courrier et les cadeaux de Noël.

Das kleine Loch in der Jeans verschließen, in die Jahre gekommene Kinderkleidung aufpeppen, Kissen, Decken und viele andere Textilien schmücken, alles geht mit den lustig bunten HERMA Bügelstickern aus Stoff. Sie sind ganz einfach und schnell aufgebügelt und halten sogar der Waschmaschine und dem Trockner Stand.

Mindestens genauso praktisch wie lustig sind die neuen HERMA Wäscheetiketten zum Aufbügeln, Magnet-Lesezeichen und Leuchtsticker.

Patch that little hole in your jeans, pep up your faded children's clothing, decorate pillows, blankets and other textiles – the possibilities are endless with colourful HERMA iron-on transfers made of fabric. Ironing them on is quick and easy, and they won't come off in the washer or dryer.

Also both fun and practical: the new HERMA iron-on clothing labels, magnetic bookmarks and luminous stickers.

Fermer un trou dans les jeans, relooker des vêtements d'enfants défraîchis, décorer des coussins, des couvertures et plein d'autres articles en matières textiles, tout est possible avec les amusants stickers à repasser HERMA en tissu et de toutes les couleurs. Ils s'appliquent aisément et rapidement avec un fer à repasser, et résistent même au lave-linge et au sèche-linge.

Les nouvelles étiquettes pour vêtements à repasser HERMA, les marque-pages magnétiques et les stickers fluorescents sont tout autant pratiques qu'amusants.

Haftetiketten

HERMA Haftetiketten machen sich schnell und dauerhaft unentbehrlich. Als signalstarke Hinweise, zum Kennzeichnen, Ordnen, Organisieren, Terminieren und Planen übernehmen sie im Alltag vielfältige Funktionen.

- Große Vielfalt in weiß und farbig, permanent haftend.
- Hochwertiges Etikettenmaterial in weiß mit 75 g/m² oder farbig mit 80 g/m².
- HERMA Packungen für geringen Bedarf (Blattformat 84 x 120 mm).
- Sortierte Packungen für flexibles Auszeichnen und Markieren.
- Umweltfreundlich: Etiketten und Trägerpapiere aus chlorfrei gebleichtem Zellstoff und lösemittelfreiem Kleber.

Adhesive Labels

HERMA multi-purpose labels quickly make themselves indispensable. They are practical aids for all kinds of everyday tasks: calling attention to important information, labelling, organizing, scheduling and planning.

- Large variety, white and coloured, permanent adhesion
- High-quality label material, white 75 g/m² or coloured 80 g/m²
- HERMA packs with small quantities (sheet format: 84 x 120 mm).
- Assortments for flexible labelling and marking.
- Environmentally friendly: Label material and backing papers made of chlorine-free bleached cellulose and solvent-free adhesives.

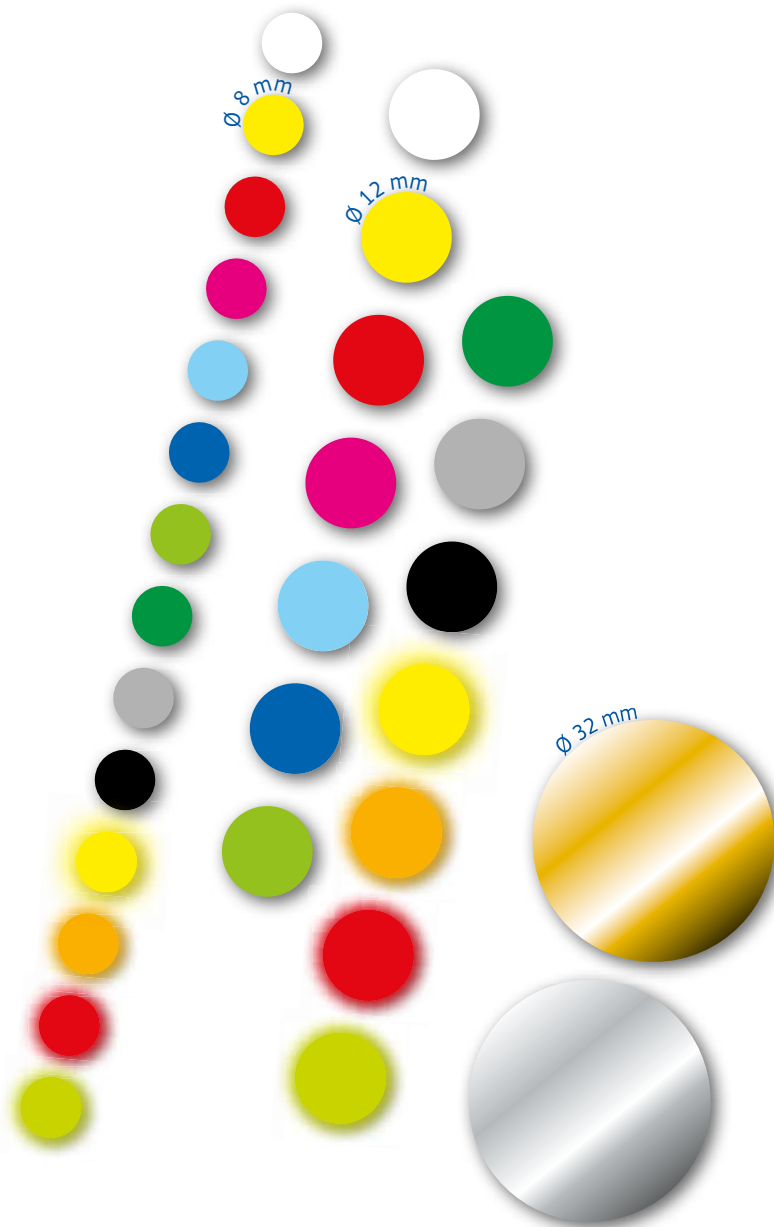

Étiquettes Adhésives

Les étiquettes adhésives HERMA se rendent rapidement et durablement indispensables. En tant que mentions signalétiques, pour identifier, classer, organiser, fixer des dates et planifier, elles remplissent diverses fonctions dans la vie quotidienne.

- Grande variété en blanc et en couleur, adhérence en permanence.
- Matériau d'étiquette de grande qualité en blanc, 75 g/m², ou en couleur, 80 g/m².
- Pochettes HERMA pour faible demande (format de feuille 84 x 120 mm).
- Pochettes assorties pour un marquage et un étiquetage flexibles.
- Écologique : étiquettes et papier-support en pâte de cellulose blanchie sans chlore et colle sans solvant.
