In 2011, our product line extends beyond sharpener. Including eraser, colour pencil as well as sharpener, Y-PLUS's an aggressively growing brand in stationery industry. Be an integrative stationery supplier. Grow with your dream.

*Grow with
your dream!*

Y-PLUS+

Founded in 1990, our company has been skilled in manufacturing middle and high-grade pencil sharpeners in the past a few years. At the current stage, our main products are plastic pencil sharpeners for student using, cosmetic sharpeners with brands of "Alice" and "YOUYI", as well as wooden and bamboo sharpeners conforming to environment protection.

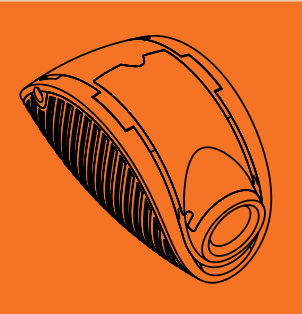

We also pay much attention to some advanced sharpeners made by new materials, which are not only practical but also sanitation. Furthermore, we provide high quality nickel-plated blades of pencil sharpeners according to our customer's requirement.

We control all the processes including blade making, plastic injection and assembling in our factory, so as to ensure our quality and lead time for every process. Thanks to the skilled technical personnel, advanced production technology and a wide product range, our pencil sharpeners have been approved by European EN71 standard.

In 2009, we push our YPLUS stationery to the international market. Our mission is to bring the worldwide consumers a bit of ease and a lot of fun when using our fashionable designed-and-made-in-China products.
